# **Carbon Management Course (Co2)**

---

## Overview

---

As governments and organizations across the globe take steps to reduce our collective greenhouse gas emissions, the emerging field of carbon management will continue to expand and evolve. Along with these evolving priorities, policies, and laws will come an increased demand for professionals with the skills to help organizations evaluate and manage carbon emissions.

Developed by CSU's Department of Ecosystem Science and Sustainability, this graduate certificate program provides you with the specialized knowledge to effectively analyze carbon production and manage and/or offset emission levels for government entities and large corporations.

---

# Contents

---

- Understand quantitative and qualitative methods applicable to the study of greenhouse gas emission management
  - Explain greenhouse gas sources and sinks, and how they might be managed
  - Discuss current issues in greenhouse gas policies and climate change
  - Calculating Carbon Emissions
- 
- Evaluate the linkages between socioeconomic and ecological processes that drive increases in atmospheric greenhouse gas concentrations
  - Assess the costs, benefits, and co-benefits of emission reduction and offset purchase strategies.
- 
- Work in a multidisciplinary setting or as part of a multidisciplinary team
  - Carry out basic greenhouse gas assessments using systems approaches and integrative methods, including the application of life cycle analysis and other numerical quantification tools

---

## **Course tools**

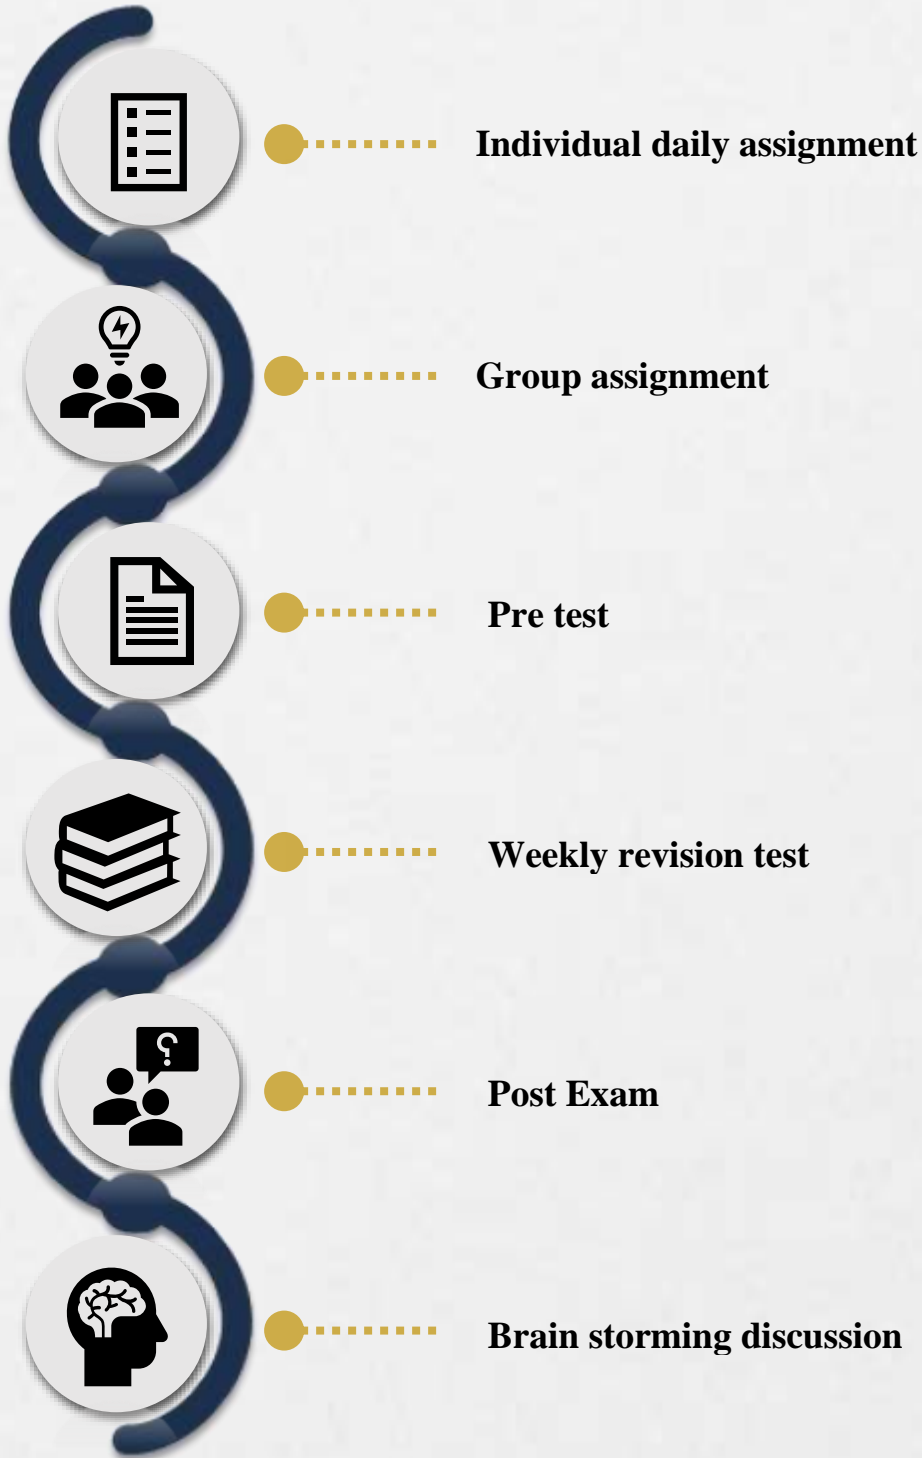

- **Individual daily assignment**
  - **Group assignment**
  - **Pre test**
  - **Weekly revision test**
  - **Post Exam**
  - **Brain storming discussion**
- 

---

## Course tools

---

---

## Audience

---

Management Team, HR Team, EHS Team, Fire managers, fire engineers, Electrical engineers, Auditor and Emergency response Engineers response Engineers

## Course Duration, date & Location

---

- 1 week (5 working days) from April 15 – April 19 2024 at Kuala Lumpur Hilton Hotel
- 1 week (5 working days) from September 9 – September 13, 2024 at Kuala Lumpur Hilton Hotel

## Tuition

---

**USD 3100 per participant** including: 2 coffee break and lunch, copy of original material and Hard copy for CES guide last update, Air mail and certificate fees

# Certificate

Attendee's certificate granted from International Accreditation Forum (G-CERTI)/ USA with Cooperation with AREX Group after passing 78% from post Exam
